

OSBORNE & LITTLE

JIVE – AUTUMN 2022

MARGO SELBY  
for  
OSBORNE & LITTLE

FOLLOWING THE SUCCESS OF RAGTIME AND MEMPHIS BRITISH TEXTILE ARTIST  
AND DESIGNER MARGO SELBY INTRODUCES JIVE

The JIVE collection brings together colourful textures, and unmistakable Margo Selby design, in woven fabrics for upholstery and soft-furnishing. Inspirations are as diverse as architecture and typography, and always music. Named after the raucous mid twentieth century dance, these structured designs are complex and energetic.

The patterns feature clean lines and bold shapes, realised with mathematical precision, in harmonious colours. Margo is a handweaver and artist, making unique textile works on various studio looms; the designs for the Osborne & Little 'Jive' Collection are developed from Margo's art practice – embodying the studios 'art-into-industry' approach.

BOSSA NOVA

### BOSSA NOVA

Intersecting zig-zagging shapes are woven in looped and cut piles, creating a bold velvet fabric with angular dynamism.

### CARIOCA

This dual purpose wool fabric features a complex vertical stripe. The precise variations of colour proportions expand and contract, creating a rhythmic pattern – like a musical scale.

CARIOCA

GAVOTTE

### GAVOTTE

An intricate block pattern design inspired by the mechanics of weaving with intersecting lines.

MAMBO

**MAMBO** – a stepped pattern with an architectural three-dimensionality is reminiscent of Margo's hand-woven artworks.

**MOTOWN** – originally introduced in the MEMPHIS collection this geometric jacquard fabric of contrasting colours in circles, triangles and squares is presented in three new colourways.

MOTOWN & BOLERO

**BOLERO** – a geometric cut velvet pattern of diamond motifs is woven in looped and cut piles, creating depth and texture.
