

# OSBORNE & LITTLE

SPRING 2020

## MANSFIELD PARK FABRICS AND WALLPAPERS

A collection of decorative prints, velvets, embroideries and wallpapers offers a modern take on the quintessential English countryside house, its gardens and surrounding countryside. The designs take their names from houses, places and characters featuring in the novels of the celebrated British novelist, Jane Austen.

### GLORIANA

A collection of glamorous geometric velvets in vibrant colourings such as lime, terracotta, teal and multi-coloured combinations as well as elegant neutrals including silver and stone. Favourite garden roses lend their names to the designs.

## MOUFLON

A collection of luxurious dual-purpose wools which include mohair and alpaca. These soft and tactile fabrics are presented in a contemporary colour palette featuring strawberry, blush, caramel, leaf green, aqua and indigo.

The collection takes its name from the mouflon, a wild species of sheep thought to be the ancestor for all modern domestic sheep breeds.

The decorative fabrics and wallpapers are supported by plain and semi-plain fabrics in Osborne & Littles signature colour palette.

**COLBY** – a wide-width washable polyester with the appearance of a plain linen woven with a hand-spun yarn. This fabric is flame-retardant making it an ideal choice for both hospitality and domestic interiors.

**NOCTURNE** – a wide-width washable polyester with the soft texture and appearance of a marled wool. In addition to providing 100% blackout it has a flame-retardant back-coating.

**SKOMER** – an island off the coast of Wales gives its name to this collection of semi-plain weaves. The four textured weave qualities include bouclé, chenille and spaced-dyed yarns, and are stain-resistant.

## SUMMERHOUSE

Outdoor / Indoor

Hothouse and indoor plants provide inspiration for this collection of printed fabrics and co-ordinating weaves. The fabrics are stain and mildew resistant and have excellent light fastness, making them suitable for outdoor use.

The colour palette includes sunshine yellow, turquoise, terracotta, apple green, black and linen, providing options for poolside, gardens, terraces and sunny interiors.
